DAVE & ROSE LTD

Corporate profile

**ENGINEERING, ENVIRONMENTAL &
WASTE MANAGEMENT SPECIALIST**

...committed to service

SERVICES & SOLUTIONS WE PROVIDE

ABOUT US

Dave & Rose Ltd is a fast growing multi-discipline company that provides specialist consultancy, multidiscipline engineering design and project management services in the fields of Engineering, Environmental and Waste Management.

We provide broad skills and specialization which combined with our practical experience enables us to provide safe, economic and practical solutions for main contractors, government agencies, consulting engineers, plant and site owners.

We have strong links with universities, re-search organizations and professional institutions which help us to deliver innovative and ground breaking services on our projects. By working with our clients in the early project phases and understanding their objectives, we not only identify the risks but have the potential to turn them into opportunities.

OUR VISION STATEMENT

To be a world class leader in delivering excellence and fit-for-purpose solutions to our clients whilst remaining the employer of choice.

CLIENT COMMITMENT

We have a unique track record of combining project experience and technical expertise across a range of disciplines. We believe that to provide best value, it is essential to identify our clients' needs in detail, and to provide tailored, manageable, on-site solutions which naturally add value.

OUR VALUES

Our team of professionals provides an enthusiastic and imaginative approach to problem solving on your behalf. If quality, professionalism and innovation are values important to your organization, then you will appreciate our service.
